Kendriya Vidyalaya, Eluru	Tenth	9.2 CGPA

Professional Experience

In the company, I have worked on many projects, tasks and POC's. The projects which highlight my technical profile are listed below:

1. Project Name: Capital Gain Tax Tool (CGT)

Description: Capital Gain Tax is an automated tool where it is responsible for handling different tax-related operations for different clients. Multiple types of calculations are involved in handling stocks like Stock split, conversions, bonus and rights issue. Data will be maintained and updated hourly in the transactional database where this data will be consumed by the business team.

Role : **Software Developer**
Client : **State Street Corporation India Pvt Ltd.**
Technologies : **C#, Excel Interop, VBA, WPF, MS Access**

Responsibilities:
- Responsible for designing and coding of CGT Tool.
- Responsible for publishing the application.
- Responsible for providing support to CGT Tool.
- Responsible for writing and executing test cases in order to ensure quality.

2. Project Name: Bank Payment Report Tool (BPR)

Description: Bank Payment Report is a report that is automated to process data and generate a file from particular file system and will be sent an email to the client based upon the requirement every day.

Role : **Software Developer**
Client : **State Street Corporation India Pvt Ltd.**
Technologies : **C#, Excel Interop, SMTP, WPF, Fiddler, Http Reqs**

Responsibilities:
- Responsible for designing and coding of BPR Tool.
- Responsible for publishing the application.
- Responsible for enhancement of the BPR Tool.
- Responsible for writing and execution of test cases in order to ensure quality.

3. Project Name: Data Validator Tool (DVT)

Description: DAT tool is responsible for validating the data, styles, layout as well as formatting of excel files related to client. This will vary from client to client, total clients are 50. Coding in a way that it will support all clients is the tricky part.

Role : **Software Developer**
Client : **State Street Corporation India Pvt Ltd.**
Technologies : **C#, Excel Interop, WPF**

Responsibilities:
➢ Responsible for designing and coding of DVT Tool.
➢ Responsible for publishing the application.
➢ Responsible for writing and execution of test cases in order to ensure quality.

4. Project Name: Ideation Hub

Description: The ideation hub is a project for encouraging new innovative ideas, where the project ideas will be submitted and waited for the business and technical approvers and provide feedback to the user through email or notifications in site.

Role : **Senior Software Developer**
Client : **State Street Corporation India Pvt Ltd.**
Technologies : **HTML, CSS, SMTP, ASP.NET, VB.Net, MVVM, SQL Server, jQuery, JS**

Responsibilities:
➢ Responsible for designing and coding of front end, database Schema.
➢ Responsible for writing stored procedures.
➢ Responsible for coding different logic for sending relatable data to UI using Ajax calls.
➢ Responsible for writing and execution of test cases in order to ensure quality.
